

Important Notes Regarding Use of the Aptitude Test Booking System

When booking an aptitude test appointment through the aptitude test booking system, please be sure to note the following points.

- Aptitude tests are by appointment only. You cannot take the test without a prior booking, so please be sure to book your test in advance.
- Newly hired drivers and those operating a light-duty cargo vehicle for the first time must take a "Novice Driver Test." Additionally, individuals aged 65 or older must take a "Driver Test."

- For light-duty motor truck transportation businesses, please select "Truck" as your business type when making bookings.

- Please note that the fee for taking the aptitude test (¥4,800 for both the Novice Test and the Driver Test) must be paid in cash in Japanese yen. Cashless payments such as credit cards or electronic money are not accepted.
- Counseling is generally conducted in Japanese. If you have difficulty communicating in Japanese, please bring someone who can interpret for you when taking the aptitude test, if possible.
- * Should an interpreter accompany you, please refrain from interpreting in a loud voice to avoid disturbing other people taking tests.
- The aptitude test booking system only allows you to book appointments for aptitude tests. You cannot book "Vehicle Operation Manager Instructional Training" or "Light-Duty Cargo Safety Manager Training" from this page. If you wish to book "Vehicle Operation Manager Instructional Training" or "Light-Duty Cargo Safety Manager Training," please do so from a different page.

Contact: **National Agency for Automotive Safety and Victims' Aid** (Japanese only)

· To confirm the schedule of aptitude tests or make a booking, please contact your nearest branch office.
